# FROM THE HEAD MISTRESS' DESK

Greetings from Navy Children School, Arakkonam!

We take immense pride in presenting to you the first edition of the school e-newsletter, GLIMPSES AND GLANCES.

As I present this first edition, I am delighted to share some of our important milestones:

1. Naval Kindergarten was commissioned in INS Rajali in June 1992. It started functioning in the old boy's hostel since 03 January 1994. The school started functioning from its own building since April 2002. The school was upgraded to Naval Public School on 07 April 1997, as a co-education institute and re-christened as Navy Children School (NCS) in April 2005. The school has approximately 536 students today.
2. We have classes from Std I to X. Counted as one of the top schools in Arakkonam, it ignites a spark in students' minds in order to develop thought-provoking processes and bring out the best in each one of them. Our students emerge as district, state, national and international achievers in various competitions – sports and extracurricular.
3. With staff strength of 45, we offer education to children of serving naval personnel and wards of other defence organizations and students from the civilian community residing around the school.
4. Discipline is a way of life and we strive to live upto our motto 'Knowledge is bliss', in everything that we do.
5. We strive to inculcate values like, pride for the nation, highest form of integrity, honesty, discipline and a strong sense of community, in our students.
6. We look forward to presenting upcoming editions to give impetus to the creative endeavors of our students through this newsletter. We hope that all of you enjoy reading the quarterly edition of the school e-newsletter as much as we enjoyed putting it together for you.

# WORLD ENVIRONMENT DAY

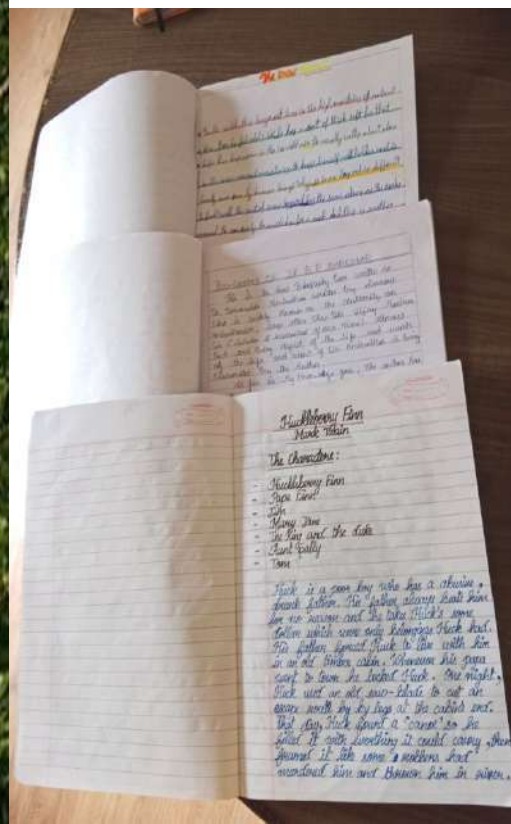

Choose only one master - NATURE.  
Rembrandt

On this occasion, students took part in many online activities. They made eco-friendly bags, posters and wrote slogans on the theme 'save environment'. They also planted saplings at their homes. This year's theme was 'Only One Earth', which draws our attention towards playing our role effectively while living in perfect harmony with nature - without proving a burden on it.' The day was celebrated with vigor amidst the summer vacation. The celebrations ended with educating students on how to plant and adopt a tree and motivated them to plant more and more trees and tree plantation at their homes. Students took an oath to take an initiative to save the environment and doing their bit for a cleaner and greener Earth.
